Dear Madam,

I am writing to you concerning the interview that was conducted in my house by Sonia Rothwell. I agreed to do this interview to tell them about the way I was treated in Quarries. I was misrepresented by Sonia. I said I had no reason to think that my brother would say that he had been sexually assaulted by someone if he the said person never done it. I also said my brother would not make false accusations. I was mad to look like I would abet and call my brother liar. I would just like it to be known that I would prosecute anyone who abused a child or

sexually assaulted them. I would like Sonia Helen and John Porteous to know this. I would not appeal for John Porteous to get out of prison as I think he deserved the sentence that the court imposed on him for sexually assaulting children. I would like a transcript copy of this also of the interview that Sonia conducted in my house. I made a statement to the police about the abuse I suffered and I stand by it because it is the truth.

Yours Sincerely

J. Whelan
